

**Evaluation Sheet of Guest Professor Program,  
Graduate School of Science, Osaka Prefecture University**

*The following information will be used as a reference material for our evaluation of the program. We appreciate your kind cooperation. We appreciate your sending this form by e-mail to [kiriye@mi.s.osakafu-u.ac.jp](mailto:kiriye@mi.s.osakafu-u.ac.jp), Prof. Kouyemon Iriye, Graduate School of Science, Osaka Prefecture University.*

1. If there are comments or advice for the graduate students who took your lecture in “Science Communication”, we appreciate your writing them below.

2. If there are comments or advice for the graduate students of your host professor, we appreciate them.

*In general, there has been good response and attention from graduate students, their strong chemical background is clear and they are able to follow lectures in English relatively easily. They should not be shy and ask more questions when needed. Also, they should not hesitate to answer questions from the professor.*

3. If there are comments or advice for the undergraduate students who took your lecture, we appreciate them.

*It is sometime difficult to concentrate on a lecture in English for some undergraduate students. But in general, they are willing to get the best from foreigners and are ready to play the game. They should not be so shy and ask questions as often as needed. Also, they should not hesitate to answer questions. I guess undergraduate students should also save some spare time for non-scientific books (novels) and movies to keep an open-mind on the rest of the world.*

4. If there are comments and suggestions for our program, we appreciate them.

Your program for guest professors is exceptionally good and well organized. There is nothing I could think to make it better. I rather consider it as a model that I would like my institution to adopt...

5. Can we make this sheet open to the public? [ YES ]

Name Jacques F. Maddaluno

Date September 3rd, 2009

Thank you.
