

**Evaluation Sheet of Guest Professor Program,
Graduate School of Science, Osaka Prefecture University**

The following information will be used as a reference material for our evaluation of the program. We appreciate your kind cooperation. We appreciate your sending this form by e-mail to kiriye@mi.s.osakafu-u.ac.jp, Prof. Kouyemon Iriye, Graduate School of Science, Osaka Prefecture University.

1. If there are comments or advice for the graduate students who took your lecture in "Science Communication", we appreciate your writing them below.

The student's vocabulary of the technical words is poor. I recommend that the graduate students, as well as the undergraduate students, should have more chance to learn technical words in their own special area (it is physics in my lecture)

2. If there are comments or advice for the graduate students of your host professor, we appreciate them.

I am very satisfied the graduate students of my host professor. They know what they are talking about, and they enjoy their subject. This is the moment that the students should build their character. Hence, they should read a lot of outstanding classic books in many area in addition to read technical books of their studies.

3. If there are comments or advice for the undergraduate students who took your lecture, we appreciate them.

I have the same comment as 1. mentioned above. They should have more chance to learn technical words in their own special area.

4. If there are comments and suggestions for our program, we appreciate them.

This program is excellent. I suggest that the lectures will be chosen from all over the world, and they should introduce the own country and his/her university in addition to teach his/her special area. For these introductions he/she should spend at least on third of the lecture. I also recommend that the lecturer should ask a lot of questions during the lecture in order to let the

students speak English.

5. Can we make this sheet open to the public? [YES or NO]

Yes.

Name  Date Oct. 9, 2009

Thank you.
