

**Evaluation Sheet of Guest Professor Program,
Graduate School of Science, Osaka Prefecture University**

The following information will be used as a reference material for our evaluation of the program. We appreciate your kind cooperation. We appreciate your sending this form by e-mail to kiriye@mi.s.osakafu-u.ac.jp. Prof. Kouyemon Iriye, Graduate School of Science, Osaka Prefecture University.

1. If there are comments or advice for the graduate students who took your lecture in “Science Communication”, we appreciate your writing them below.

It is interesting that students’ questions concerned not only concrete topics of lectures but also some more general ones, especially Poland. The questions were mostly in Japanese. Thus, science communication sometimes was difficult a little bit and more attention should be paid learning English.

2. If there are comments or advice for the graduate students of your host professor, we appreciate them.

I participated in two seminars prepared by graduate students and my impressions were very positive. I would like to say that are working very hard in the laboratory and their topics for M. S. degree really need a lot of experimental works. But they should find some more time for learning English.

3. If there are comments or advice for the undergraduate students who took your lecture, we appreciate them.

Some additional explanations for topics lectured by host professor were necessary for full understanding by most undergraduate students and then their questions were really interesting. Again, knowledge of English is very important.

4. If there are comments and suggestions for our program, we appreciate them.

The program is very useful for both sides for two reasons; 1) gives possibility to present lectures by guest professors mostly concerned their own researches (sometimes may be with a new idea) – it should be helpful for students including further discussion with graduate students in the laboratory, 2) it is good time to discuss about joint research cooperation with host professor and other professors working in similar subjects; in my case I discussed about further continuation of our joint cooperation.

5. Can we make this sheet open to the public? [YES ~~or NO~~]

Name Prof. dr. hab. Marian Saniewski Date November 28, 2008
