

**Evaluation Sheet of Guest Professor Program,
Graduate School of Science, Osaka Prefecture University**

The following information will be used as a reference material for our evaluation of the program. We appreciate your kind cooperation. We appreciate your sending this form by e-mail to kiriye@mi.s.osakafu-u.ac.jp, Prof. Kouyemon Iriye, Graduate School of Science, Osaka Prefecture University.

1. If there are comments or advice for the graduate students who took your lecture in “Science Communication”, we appreciate your writing them below.

Students were very attentive, and asked a number of excellent questions during and after the lecture. This was a very positive experience.

2. If there are comments or advice for the graduate students of your host professor, we appreciate them.

I really enjoyed being able to spend some time with the students in Professor Toyota’s group. They were very friendly and helpful, and also offered me stimulating scientific discussions both in formal presentations and informal discussions

3. If there are comments or advice for the undergraduate students who took your lecture, we appreciate them.

I encourage undergraduate students to overcome their inhibition to asking questions. Perhaps there was some concern about English ability, but in my experience the students at OPU generally speak English very well. Overall, without very many questions or comments, it is difficult for me as an instructor to determine whether I am achieving a good level of communication with the students.

4. If there are comments and suggestions for our program, we appreciate them.

This is an excellent program. I really enjoyed having lots of opportunities to meet students, and I hope that receiving some lectures in English was a useful experience for them. On a personal level, it was very stimulating to be able to spend a month in Japan, and to become better acquainted with the wonderful cities of Osaka and Sakai, as well as OPU. I hope that this program will be continued, so that others may have this excellent scientific and cultural experience.

5. Can we make this sheet open to the public? (YES) or NO]

Name Frederick Glenn West Date 15 June, 2010

Thank you
